On 30 June the Chinese Communist Navy controlled the following submarines:

- a. Port Arthur: one 1,700-ton submarine designed for long distance reconnaissance and loaned to the Chinese Communists in November 1950.
- b. Dairen: one 600-ton old-type submarine received from the Soviets in 1949 and now used for practice and training, and one 1,100-ton submarine built by the Soviets in 1948 and transferred to the Chinese Communists in February 1951.
- c. Tsingtao: two 1.450-ton combat submarines built by the Soviets in 1947 and loaned to the Chinese Communists in Pay 1951 for use in advance operational training, two 600-ton submarines transferred to the Chinese Communists in Parch 1950 for use in training and practice, and one 3,200-ton transport submarine built by the Soviets in 1949 and loaned to the Chinese Communists in Parch 1951.
- d. Tulin: one 1,100-ton submarine transferred to the Chinese Communists in March 1951, and one 1,400-ton submarine loaned to the Chinese Communists in March 1951.
